

About us

Cooper Medical supply medical equipment, surgical mesh and surgical and ophthalmic instruments to public and private hospitals and private practices throughout New Zealand. We also provide repair services for a range of scopes and equipment.

We source products from all over the world and directly import from overseas suppliers so if you have been unable to obtain the product you needed previously contact our expert team.

In New Zealand we work with a range of engineers to have custom products made to order. We are passionate about providing high quality, cost effective products, that will save the health dollars spent in New Zealand.

Surgical Instruments
