Innovative Products for Women's Health

Company Profile

Founded in 1975, MedGyn manufactures and distributes medical devices for women's healthcare including single use devices, high-quality instruments and equipment for Obstetrics and Gynecology professionals. MedGyn collaborates with physicians and clinical staff worldwide to ensure our products meet and exceed their expectations. With focus on our corporate values, MedGyn has flourished as a leading provider of medical devices globally.

OUR MISSION

Trusted global provider of women's health products

OUR VISION

To advance women's health worldwide through innovative solutions

OUR VALUES

Commitment to the highest level of service for our customers.

Collaboration with our suppliers, partners, and teammates.

Growth together as an organization to make an imprint on women's health.

Innovation new products and services to meet our customers' needs.

MedGyn AL-106 HD™ Digital Video Colposcopes

Different from the traditional optical colposcopes, the AL-106HD™ is a digital colposcope with an LED light source for ultra-bright visualization and a long life cycle. Its unique optical precision and multiple green light filters ensure the highest quality images and improved visualization of blood vessels.

- High-resolution: 3.2M px for AL-106HD
- LED light
- 1-40x magnification
- Ultra-fast auto focus and manual focus option
- Video and image freeze
- Green light filters

**Built-in

MedGyn Image & Data Management Software

Designed for use with our AL-106 series of colposcopes, MedGyn's Image & Data Management Software captures and manages colposcopy images in a self-contained patient record. The user-friendly software includes numerous templates and is easily customizable to your clinic's requirements. The software automatically creates a variety of reports which can include colposcopy images.

- Image annotation and measurement
- Full video capture
- Statistical analysis
- Complete system security, internal password protected
- Includes capture card, security key, and foot switch

MedGyn MGC-200 Cryotherapy System

The MedGyn Cryotherapy System is designed by physicians and engineered by cryogenic experts to ensure safety, performance, and convenience. The 3-position single trigger delivers optimal cryosurgical temperatures with Nitrous Oxide (N₂O) or Carbon Dioxide (CO₂) gas. The system has standard-specific adaptors and a wide variety of autoclavable tips available.

- Single-hand control with 3 settings: freeze, off, and defrost
- Instant defrost
- Change tips without shutting off the gas
- Built-in regulators control pressure at tip for added safety and gas economy

019000 MedGyn Cryotherapy System
MGC-200 (tips not included)

MedGyn Cryotherapy Tips

Safe, interchangeable, autoclavable tips are made from a conductive gold alloy, resulting in very rapid freeze and defrost capabilities. Designed to allow for change-out without the need to shut off gas flow, reducing risk of blown "O" ring.

MedGyn MTA-100 Thermal Ablation System

The MedGyn MTA-100 Thermal Ablation System is now designed with both battery and electrical cord options, ensuring reliable performance whether mobility or continuous power is your priority. Choose the power source that best supports your patient's needs and your clinical workflow. With compatibility for 110V and 220V, the MTA-100 ensures reliable performance in clinics and hospitals worldwide.

- Battery or Electricity as dual power options for greater flexibility
- Optimized to offer 20, 40, or 60 second intervals for procedure
- Bright LED lights for clear viewing of cervical area.
- Sound and light activation for beginning and end of procedure.
- Digital display to detailing temperature at all stages of procedure
- Durable and ergonomic handle for ease of use
- 25mm tip available offering larger treatment area

MedGyn Electrosurgical Generators (ES Series)

The MedGyn ES-100, ES-200, ES-300, ES-400 Electrosurgical Generator Series meet all demands for a LEEP/ LLETZ procedure. MedGyn's generators feature both monopolar and bipolar functions to satisfy all surgical demands with safety, flexibility, reliability, and convenience.

- Pure cut and blend cut functions
- Contact coagulation and bipolar coagulation
- Displays output power digitally
- Allows operator to check output power easily during the procedure
- Power source: AC120V or AC230V, 50/60 Hz (manual switch)

MedGyn Fetal Monitors – "F" Series

MedGyn's F6 & F9 Fetal and Maternal Monitor series combine simultaneous mother and baby monitoring. These monitors offer powerful patient information management and centralized monitoring system compatibility with a color display.

- 10.2" foldable wide color screen
- 24-hour CTG storage
- Built-in thermal array printer
- Data management software for real-time data transmission to PC
- Intrapartum monitoring (DECG/IUP) (Optional)
- The F6 Express offers the same superior features as the F6 System but with maternal monitoring included

017118 MedGyn F6 Fetal Monitor (FM10)

017119 MedGyn F6 Fetal Monitor (FM10) Twin FHR

017120 MedGyn F6 Express Fetal Monitor (FM10)

MedGyn LED-100 Examination Lamp

MedGyn LED-100 Examination Lamp is used to assist in performing clinical and gynecological exams. The Lamp has a flexible, chrome-plated, top base with four casters for excellent maneuverability and stability. The LED-100 provides three times better light output than standard lamps with exceptional longevity and brightness

- Highly flexible LED light is easy to maneuver
- True tissue color rendition and pinpoint accuracy
- Power dual voltage 110V or 240V, 60/50Hz
- Illuminance of 20,000 lux (Distance of 50 cm)
- Minimum expected life of LED is 35,000 hours
- Net weight: 5 kg (10.2 lb)
- Variable height of 110cm and 150 cm (95.5lb x 130lb)
- Electrical Standards: NBR-IEC 60.601-1 and NBR-IEC 60.601-1-2

010551 MedGyn LED-100 Examination Lamp
(Includes Rolling base with 4 Casters)

- Gauze, 4-ply (3" x 3") 5ea.

022527-X Manual Vacuum Aspiration (MVA) Kit

022527 Manual Vacuum Aspiration (MVA) Kit

*International Only

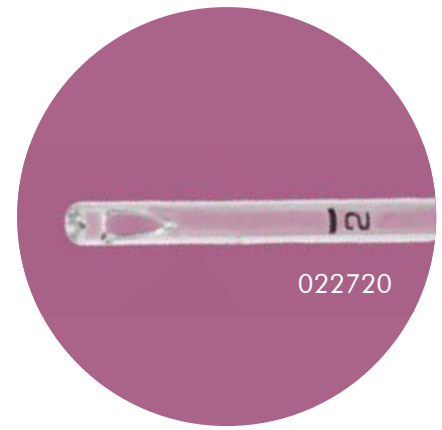

MVA Kit for export includes all of the above content except ring forceps and sponge prep stick

MedGyn Endosampler™

The unique design of the MedGyn Endosampler™ allows for superior accuracy and a more reliable sample. Available with one or two holes for the right amount of suction for each patient.

**Just one insertion
for a perfect sample**

- 3mm curette and 10cc syringe
- Highly-visible graduated markings
- Semi-rigid curette
- Curved for improved manipulation
- Prevent back-flow with syringe lock-spring
- Sharp slot in curette tip
- "Closed" system prevents sample contamination

022720

022722

- 022720 MedGyn Endosampler™ (25/Box)
 022722 MedGyn Endosampler II™ (25/Box)

MedGyn Pipette™

The MedGyn Pipette™ and Pipette IV™ are unique, sterile, disposable cannulas for sampling the endometrium.

- Semi-rigid and tapered for easy insertion and safety
- Flexible enough to collect tissue from all areas
- Yield specimens highly suitable for both cytologic and histologic diagnosis

022721 MedGyn Pipette 3.1mm O.D. (25/box)

022730 MedGyn Pipette IV 3.1mm O.D. (25/box)

MedGyn Endocervical Curette

The MedGyn Endocervical Curette provides an efficient sampling of the cervical canal to test for abnormal, precancerous conditions, or cervical cancer.

- The Kevorkian-Young endocervical curette is a sterile, single-use device with a basket and a square tip.

022732 MedGyn Disposable Endocervical Curette (25/Box)

MedGyn Mucous Sampler

The MedGyn Mucous Sampler is a single-use, sterile, endocervical aspirator.

- 23 cm long, clear, flexible polypropylene tube
- 2.2mm diameter circular opening
- Distal end rounded for safety

022729 MedGyn Disposable Mucous Sampler (25/pack)

MedGyn Cell Sweep®

The MedGyn Cell Sweep® makes pap smears easier than ever by simultaneously sampling both the endocervix and ectocervix, eliminating the need for both a cytobrush and spatula.

- Soft, malleable, and adaptable to individual cervical variations
- The design and specific structure of Cell Sweep enables the cervix to be sampled twice,
- simultaneously, in a 360° motion

- 022362 MedGyn Cell Sweep® Slide Holder (100/pack)
- 022361 MedGyn Cell Sweep® Non-Sterile (100/pack)
- 022361K MedGyn Cell Sweep® Non-Sterile with Kit (Slide and Slide Holder) (100/pack)
- 022363 MedGyn Cell Sweep® Sterile (100/pack)
- 022363K MedGyn Cell Sweep® Sterile with Kit (Slide and Slide Holder) (100/pack)

MedGyn Cytobrush

- Soft, flexible nylon bristles for effective endocervical cell collection
- Tapered brush design for optimal sampling

MedGyn Pap Cell

- Contoured tip designed to fit the cervical os and ectocervix
- Smooth edges for patient comfort

- 022710 MedGyn Cytobrush (100/Box)
- 022364 MedGyn Pap Cell (50/Box)

022364

022710

MedGyn Monsel's Solution

Ferric Subsulfate Solution 20% is an effective hemostatic solution for use after cervical biopsies.

- 022610 Monsel's Solution - 8mL bottle (12/Box)
 022612 Monsel's Solution - 500mL bottle - suspension

MedGyn Single-Use Forceps

Designed for gynecologic surgical and oncologic procedures, these single-use forceps deliver reliable performance with exceptional strength and precision, crafted from high-grade medical-quality stainless steel.

- 029701-D Tischler Biopsy Single-Use
 Forceps, 9 3/4" (10/Pack)

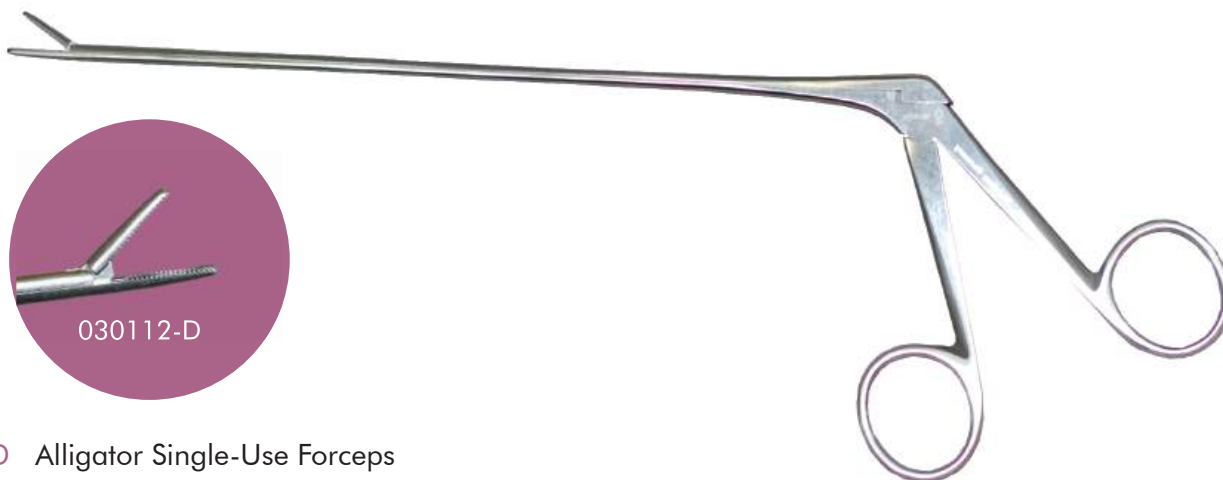

- 029702-D Baby Tischler Biopsy Single-Use
 Forceps, 9 3/4" (10/Pack)

MedGyn HSG / SHG Catheters

Flexible & Shapeable HSG Catheter

MedGyn HSG Catheter is used to inject contrast media or saline into the uterus and fallopian tubes for hysterosalpingography and sonohysterography procedures. It has a latex-free balloon catheter with a malleable placement sheath.

- 5Fr and 7Fr sizes available for easy insertion
- Placement sheath decreases the need for a tenaculum
- Allows for clear view of external cervical os
- Concentric balloon ensures minimal leakage of contrast media
- Catheter can be seen under Xray
- Shapeable catheter has an embedded wire stylet that holds its shape, for cases of stenosis or anteverted / retroverted uterus
- 28cm in length

022726 MedGyn Flexible HSG Catheters - 5Fr (10/Box)

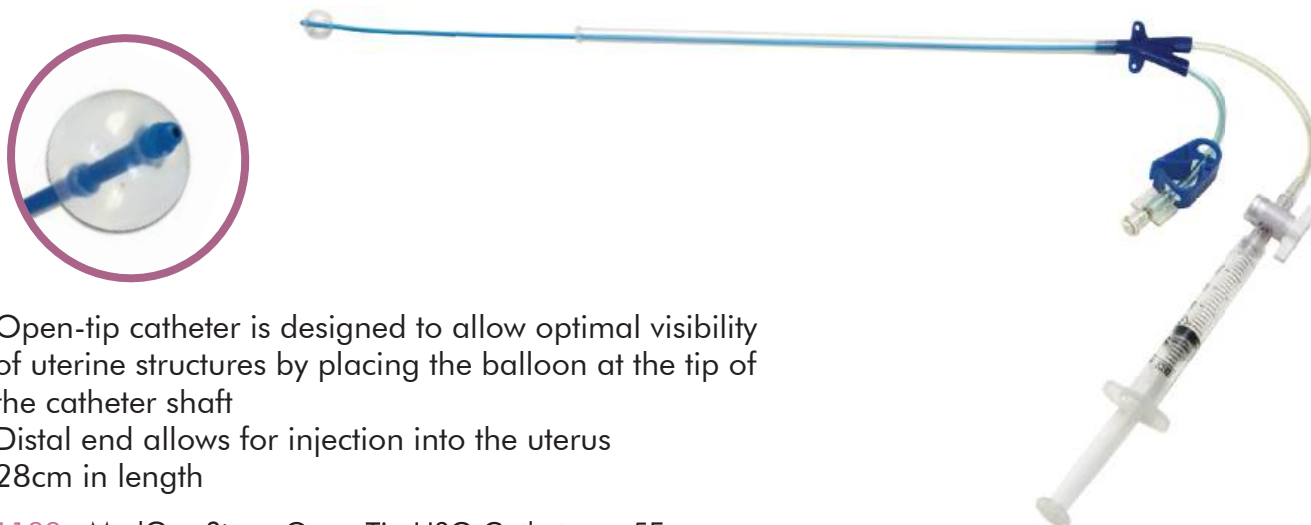

022728 MedGyn Flexible HSG Catheters - 7Fr (10/Box)

TMI1185 MedGyn Shapeable HSG Catheters - 5Fr (10/Box)

TMI1187 MedGyn Shapeable HSG Catheters - 7Fr (10/Box)

*Equivalent to TMI1154/ TMI1155 HSG Catheters

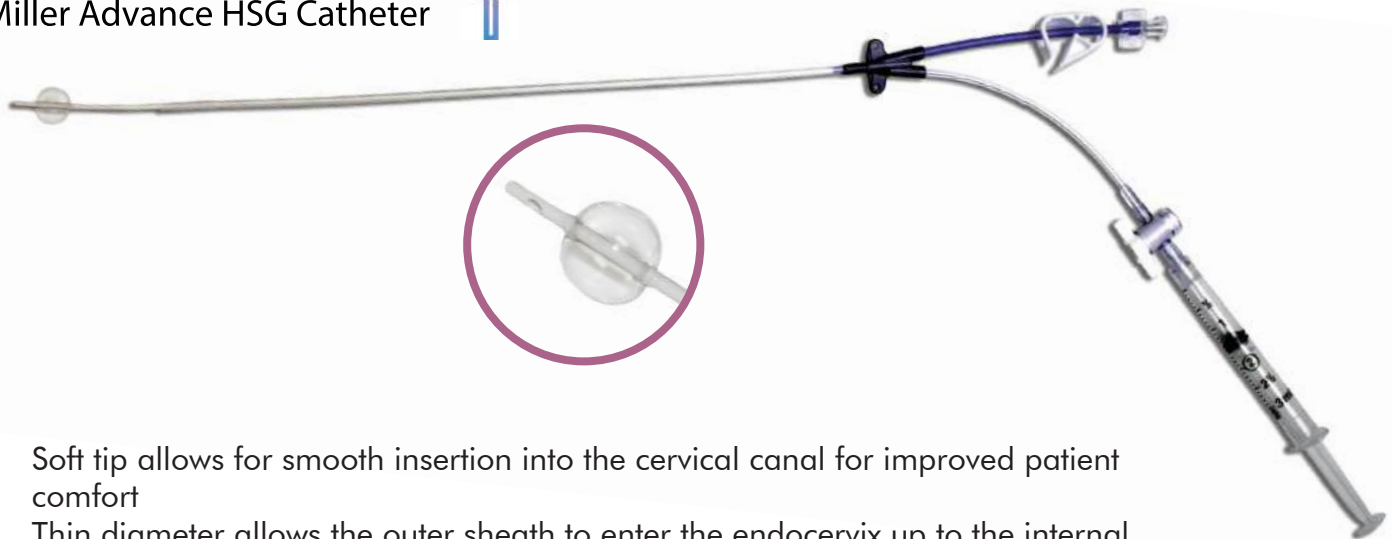

Steen Open-Tip HSG Catheter

- Open-tip catheter is designed to allow optimal visibility of uterine structures by placing the balloon at the tip of the catheter shaft
- Distal end allows for injection into the uterus
- 28cm in length

TMI1188 MedGyn Steen Open-Tip HSG Catheters - 5Fr

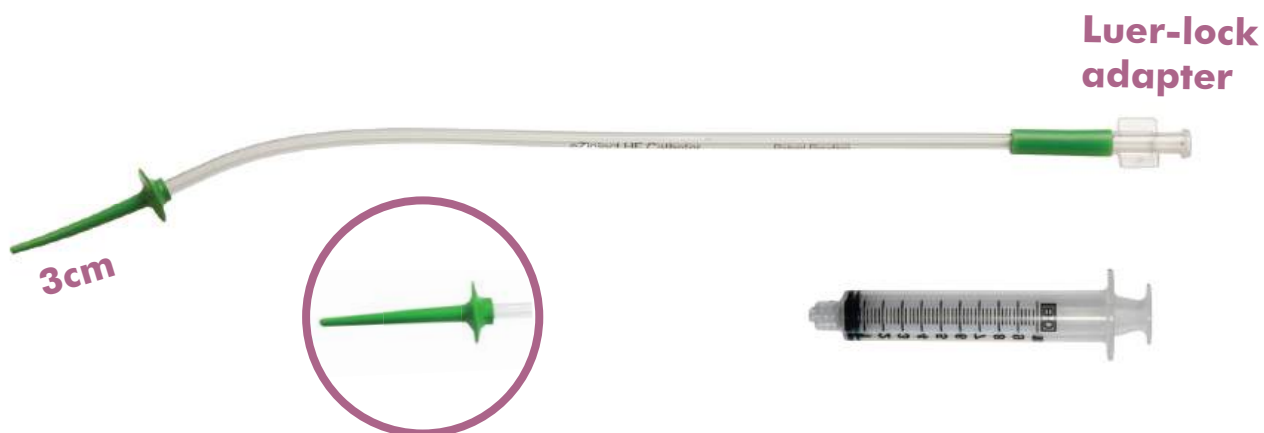

Miller Advance HSG Catheter

- Soft tip allows for smooth insertion into the cervical canal for improved patient comfort
- Thin diameter allows the outer sheath to enter the endocervix up to the internal os with no additional dilation required
- Memory sheath is made of a flexible memory material that allows the catheter to comfortably conform to the shape of the cervix
- 28cm in length

TMI2002 MedGyn Miller Advance Catheter HSG Catheters - 5Fr
(10/Box)

MedGyn EZ Inject Catheter

- Balloonless catheter allows for a more complete view
- Long tip at distal end improves placement in the cervical canal
- 24cm in length
- Wide tip opening for increased flow
- Specially deigned tip helps prevent leakage

022797 MedGyn EZ Inject Catheter with 10/cc Syringe (10/box)

*Equivalent to TMI1162-HF

MedGyn IUI Catheters

- Catheter tip is rounded and beveled for patient comfort
- Regular full length is 21cm with two holes at the distal end
- Mini and Mini Curved length is 21cm with a single hole at the distal end

022723 MedGyn Intrauterine Insemination Catheter - Regular/Straight (25/Box)

022724 MedGyn Intrauterine Insemination Catheter - Mini (25/Box)

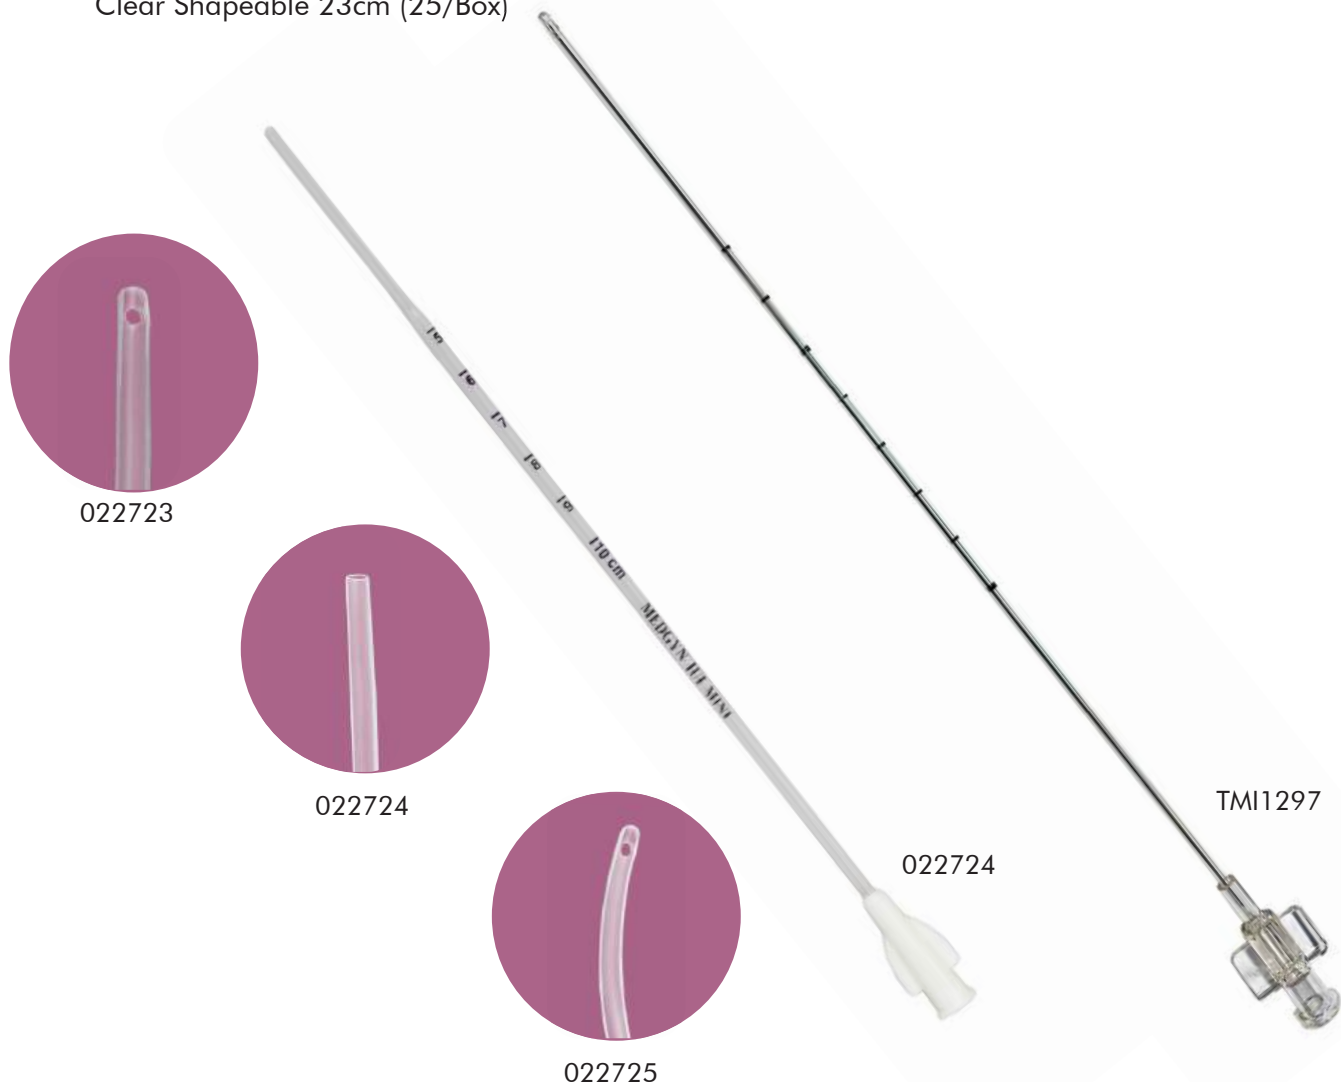

022725 MedGyn Intrauterine Insemination Catheter - Curved (25/Box)

Clear Shapeable IUI Catheter

- Embedded wire stylet adds rigidity and allows shaping for easier catheter placement in challenging cervical anatomy, including retroversion, anteversion, or cervical stenosis.
- Clear shaft enables the embryologist to see and remove any visible air bubbles, reducing the possibility of uterine spasms and retroflow

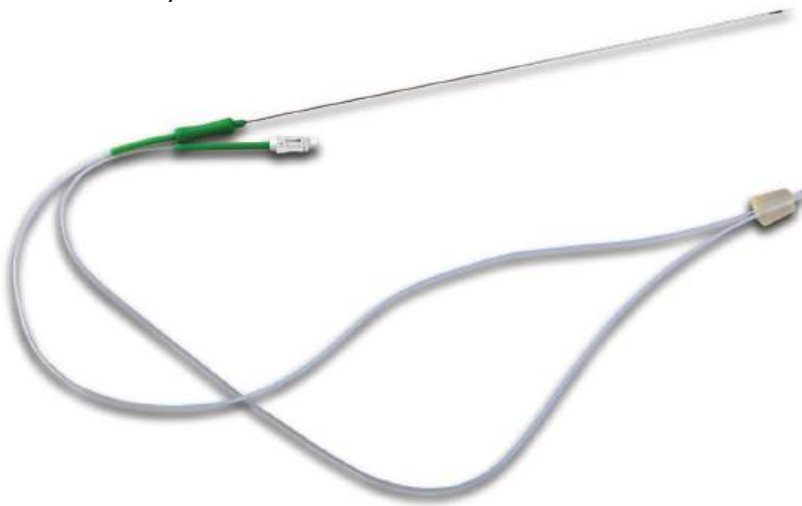

TMI1297-18 MedGyn Intrauterine Insemination Catheter - Clear Shapeable 18cm (25/Box)

TMI1297 MedGyn Intrauterine Insemination Catheter - Clear Shapeable 23cm (25/Box)

MedGyn Follicle Aspiration Needle

Our Follicle Aspiration Needle is used to harvest ovarian tissue, as well as flush oocytes from the follicles.

- Echo Marking enables high reflection and visibility for precise guidance with ultrasound used during oocyte retrieval
- Used for ultrasound-guided transvaginal harvesting of oocytes from follicles
- Internal surface of the needle and tubing are extremely smooth which allows safe transfer of egg to test tube
- Enabled flushing of needle and connecting tube after the procedure
- 17 Gauge
- Available in two sizes: 32cm & 35cm / single and double lumen

022699 MedGyn Follicle Aspiration Needle, 32cm, Single Lumen (10/Box)

*Equivalent to TMI1280

TMI1280-35 MedGyn Follicle Aspiration Needle, 35cm, Single Lumen (10/Box)

TMI1282 MedGyn Follicle Aspiration Needle, 32cm, Double Lumen (10/Box)

TMI1282-35 MedGyn Follicle Aspiration Needle, 35cm, Double Lumen (10/Box)

MEA Tested

MedGyn Embryo Transfer Catheter

The Embryo Transfer Catheter is loaded with the embryo and smoothly introduced through the cervical canal up to 1 – 2cm from the uterine fundus, while trying to avoid touching the fundus under ultrasound guidance.

- Guide catheter is curved to facilitate insertion
- Guide catheter's rounded bulb tip eases passage through the cervix
- Guide catheter is 18cm in length
- Transfer catheter is soft and flexible
- Transfer catheter is echogenic which improves visibility under ultrasound
- The cervical stop comes set at 4cm and can be adjusted
- Catheters are packaged in separate sterile pouches

022698 MedGyn Embryo Transfer Catheter

*Equivalent to TMI1290

MEA Tested

MedGyn Micropipettes

Biopsy Micropipette

- Straight, sharp-cut tip
- Polished, smooth edges
- Wide inner diameter

022694 MedGyn Biopsy Micropipette

MedGyn Vitrification Straws

The MedGyn Vitrification Straws are cryopreservation storage devices utilized in the vitrification procedure to contain and maintain oocytes and embryos.

- Provide reliable oocyte and embryo vitrification
- Straws have great durability and endurance while stored in a liquid nitrogen tank
- Minimal storage space is needed while allowing the maximum quantity of straws in the tank

022697 MedGyn Vitrification Straws

*International Only

MedGyn Laminaria

Laminaria (type of hygroscopic dilator) is a 100% natural sterile cervical dilator made from a sea-grown plant containing no synthetic materials. Safely utilized for over a century, Laminaria provides gentle, gradual dilation. After harvesting, the plant is dehydrated. Once inserted into the cervical canal, Laminaria absorbs liquid, swelling to several times its initial dried diameter, gently dilating the cervix.

MedGyn Uterine Manipulator

This device is used for hysterectomy, laparoscopic tubal occlusion, diagnostic laparoscopy, mini laparotomy, salpingoplasty and fertility exams.

- Depth markings every centimeter assure a correct insertion depth
- Sturdy handle is anatomically curved to create better insertion maneuverability and manipulation
- Smaller cannula size allows for easier insertion
- Unique pear-shaped balloon provides a secure seal of the internal os

**Snap-on

MedGyn Dilasound

A strong yet flexible, single-use, double-ended device designed for gentle cervical dilation and accurate uterine depth assessment.

- Smooth, rounded tips minimize risk of perforation
- Clear 1cm depth markings for precise measurement
- Built-in safety stop 100mm from the stem to help prevent uterine perforation
- Dilator arm offers dilation from 3.5mm to 4.5mm to 5.0mm to 5.5mm over a length of 100mm

020251 MedGyn Dilasound

MedGyn Uterine Sounds

MedGyn Disposable Uterine Sounds are made of malleable plastic with centimeter graduations for accurate measurement of uterine cavity.

020250 MedGyn Disposable Uterine Sounds
O.D. 3mm 10" Length with Marking
(25/Box)

MedGyn Os Finders

Ideal for cervical dilation, uterine sounding or other intrauterine procedures. Made of semi-flexible plastic and packaged individually sterile.

- Made of smooth, malleable plastic
- Enhances procedural efficiency
- Disposable to ensure safety and lower cost of re-sterilization procedures

022731 MedGyn Disposable Os Finder (50/Pack)

022735 MedGyn Disposable Fundus Finder

MedGyn Single-Use Pratt/Denniston Dilators

- Gentle, reliable cervical dilation with durable, medical-grade plastic
- Smooth tapered tips designed for comfort, control, and dependable performance in gynecologic procedures
- Available in single-use and a reusable 5 piece set (030890)

023790-D Pratt / Denniston Single-use Plastic Dilator 5/6mm

023791-D Pratt / Denniston Single-use Plastic Dilator 7/8mm

023792-D Pratt / Denniston Single-use Plastic Dilator 9/10mm

MedGyn Word Bartholin Catheter

For use following an incision and drainage of a Bartholin's cyst or abscess. Catheter kit includes balloon catheter, syringe for balloon inflation and scalpel.

- Minimally invasive
- Improved patient comfort
- Reduces recurrence risk

022719 MedGyn Word Bartholin Catheter (6/Box)

MedGyn IUD Retrieval Hook

MedGyn's IUD Retrieval Hook is designed to assist in the removal of the intrauterine device from the uterus.

022366 Disposable IUD Retrieval Hook (25/Box)

MedGyn's Disposable Derma (Keyes Biopsy) Punch

MedGyn's latest products include a disposable derma (keyes biopsy) punch made of quality stainless steel and a ribbed sturdy handle for the ejection of lodged specimen.

- 022727-1 Disposable Derma (Keyes Biopsy) Punch 1mm
- 022727-2 Disposable Derma (Keyes Biopsy) Punch 2mm
- 022727-3 Disposable Derma (Keyes Biopsy) Punch 3mm
- 022727-4 Disposable Derma (Keyes Biopsy) Punch 4mm
- 022727-5 Disposable Derma (Keyes Biopsy) Punch 5mm
- 022727-6 Disposable Derma (Keyes Biopsy) Punch 6mm
- 022727-7 Disposable Derma (Keyes Biopsy) Punch 7mm
- 022727-8 Disposable Derma (Keyes Biopsy) Punch 8mm

MedGyn's Disposable Scalpel

MedGyn's latest products include disposable scalpels made of quality stainless steel blades with sturdy, non-slip plastic handles.

- 022798-11 Disposable Scalpel #11
- 022798-15 Disposable Scalpel #15

MedGyn Needle Extender

An effective means of extending ordinary hypodermic needles when longer needles are required.

022600 MedGyn Disposable Needle Extender

MedGyn Pregnancy Test Kits

MedGyn One-Step Pregnancy Test Kit is an easy-to-use clinical pregnancy test that delivers fast and accurate results. Our tests have built-in test controls and highly visible color.

022706

- 022704 MedGyn Pregnancy HCG Cassette Urine Test (25/Box)
- 022705 MedGyn Pregnancy HCG Combo Urine/Serum Test (25/Box)
- 022706 MedGyn Pregnancy HCG Dipstick Urine Test (25/Box)

MedGyn Cervical Cerclage Tape

MedGyn Cervical Cerclage Tape offers clinicians the reliability and support needed in cervical cerclage procedures

- Excellent durability with resistance to breakage
- Ease of removal when no longer required
- Convenient design with round-bodied needles attached at each end

- 020330 MedGyn Cervical Cerclage Tape

*International Only

MedGyn Amnio Hook

MedGyn Amnio Hook is designed to perforate the amniotic membrane with a rigid talon tip.

- Sterile, single-use device
- Designed for the safe and precise artificial rupture of membranes during labor
- Protects against cross contamination and reduces the possibility of infection
- 25cm long

020301 MedGyn Disposable Amnio Hook (50/Pack)

020301

MedGyn Sponge Forceps

Disposable plastic sponge holding forceps feature a tapered, fenestrated jaw design that provides a secure grip on sponges. The ratcheted finger ring locking mechanism ensures a firm hold on gauze, while the serrated, precisely aligned jaws deliver reliable control and performance.

022795-D Sponge Holding Forceps 17mm x 250mm length

022795-D

MedGyn Umbilical Cord Clamp

MedGyn Umbilical Cord Clamp has grooved clamping and lock to secure the umbilical cord prior to cutting.

- Grooved clamping to prevent slipping of the umbilical cord
- Locks to prevent accidental opening after clamping
- Safe and convenient for handling

020302 MedGyn Disposable Umbilical Cord Clamp (100/Pack)

020302

MedGyn Silicone Pessaries

Pessaries provide effective, non-surgical treatment for pelvic support defects and stress urinary incontinence. MedGyn offers a wide range of medical-grade, latex-free silicone pessaries and easy-to-use fitting sets.

Pessary Fitting Sets:

MedGyn offers autoclavable Fitting Sets in varying shapes and sizes to accommodate any patient.

MedGyn Pessary Remover

Designed to aid in the removal of several types of pessaries. The firm grip and flexibility allows patients to safely and easily remove their own pessaries. The high-quality plastic is not cold, unlike metal removers, greatly increasing patient comfort.

031315 Pessary Remover

Pederson Speculum

Pederson Vu-More Speculum

Larger view area (4cm vs. standard 3cm) with durable coating.

- 030981 Medium 4 $\frac{1}{2}$ " (114mm)
- 030982 Large 5" (127mm)

Pederson Vu-Max Speculum

Largest view area (7cm vs. standard 3cm) with durable coating.

- 030983 Medium 4 $\frac{1}{2}$ " (114mm)
- 030984 Large 5" (127mm)

Klopfers Speculum

Wider opening (4cm) and short blade

030931 1 3/8" x 3 1/2" (35mm x 89mm)

Cusco Speculum

Unique handle-design speculum with center screw or side screw options.

- 030960 Small w/Center Screw 1 1/8" x 3 1/2" (34mm x 89mm)
- 030961 Medium w/Center Screw 1 3/8" x 4" (35mm x 102mm)
- 030962 Large w/Center Screw 1 3/8" x 4 1/2" (35mm x 114mm)
- 030963 Small w/Side Screw 1 1/8" x 3 1/2" (34mm x 89mm)
- 030964 Medium w/Side Screw 1 3/8" x 4" (35mm x 102mm)
- 030965 Large w/Side Screw 1 3/8" x 4 1/2" (35mm x 114mm)

Four-Way Speculum

Combines the characteristics of both a standard speculum and a vaginal wall retractor.

- 038095 4-Way Lateral Expander Speculum - Medium 7/8" x 4 1/4" (22mm x 108mm)
- 038096 4-Way Lateral Expander Speculum - Large 7/8" x 5 1/4" (22mm x 133mm)

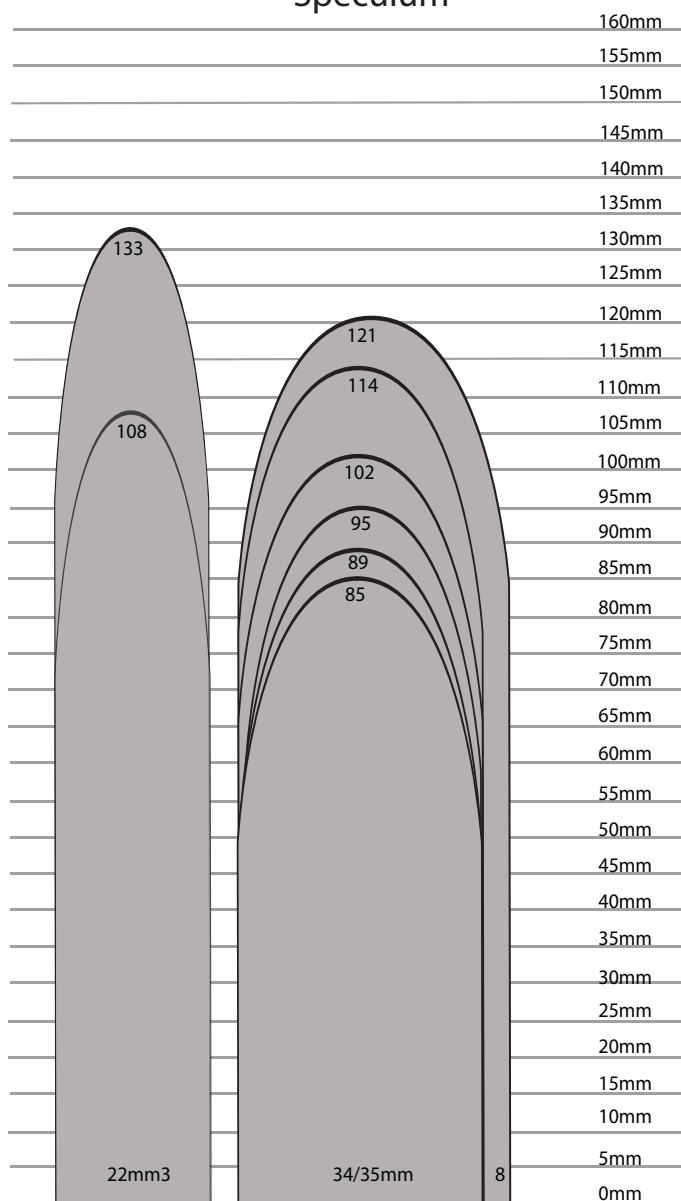

Grundman Speculum

Wide open design with screw adjustment/lever

- 030949 Small 1 1/8" x 3 1/8" (34mm x 85mm)
- 030950 Medium 1 3/8" x 3 3/4" (35mm x 95mm)
- 030951 Large 1 1/2" x 4 3/4" (38mm x 121mm)

Klopfers, Grundman, Cusco, Four-Way Speculum

Weighted Speculum

- 030921 Auvar 2.0lbs, 75° angle, Blade 1 1/2" x 3 1/4" (38mm x 83mm)
- 030922 Auvar 2.5lbs, 75° angle, Blade 1 1/2" x 3 1/4" (38mm x 83mm)
- 030923 Auvar 3.0lbs, 75° angle, Blade 1 1/2" x 3 1/4" (38mm x 83mm)
- 030924 Auvar 2.5lbs, 45° angle, Blade 1 3/8" x 4" (35mm x 102mm)
- 030926 Auvar 2.5lbs, 90° angle, Blade 1" x 5 1/2" (25mm x 140mm)

Collins Speculum

Unique hands-free design offers the advantages of an open-sided speculum while permitting multiple positioning for optimal exposure with blades that open laterally instead of vertically.

- 030946 1 ¼" x 3 ¾" (32mm x 95mm)
 030947 1 ⅜" x 4" (35mm x 102mm)
 030948 1 ½" x 4 ½" (41mm x 114mm)

Sims Vaginal Speculum 3 Piece Set

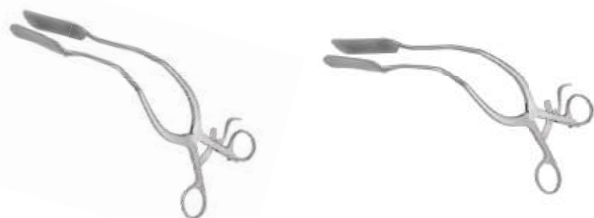

- Double-ended, smooth, curved blade
- Capable of 360-degree rotation for enhanced visualization

- 030932 Sims Vaginal Speculum 3 Piece Set
 030933 Sims Vaginal Speculum 65 x 25mm, 70 x 30mm
 030934 Sims Vaginal Speculum 70 x 30mm, 70 x 35mm
 030935 Sims Vaginal Speculum 85 x 35mm, 90 x 40mm

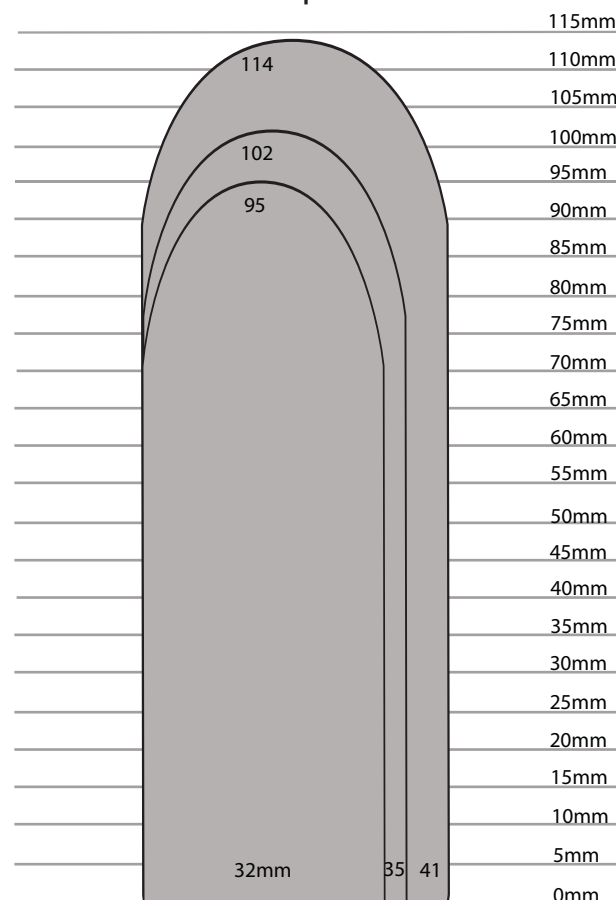

Lateral Vaginal Wall Retractor

Used for the retraction of vaginal lateral wall and made to fit inside any standard speculum to expand past blades of speculum. Allows for greater exposure of cervix for safer, more accurate procedures.

- 030970 Lateral Vaginal Wall Retractor Blue Titanium
 030966 Open ½" (13mm), 10" (254mm),
 Blade Size 1" x 2 ½" (25mm x 64mm)
 030967 Open 1" (25mm), 10" (254mm),
 Blade Size 1" x 2 ½" (25mm x 64mm)
 030968 Wide Open, 10" (254mm),
 Blade Size 1" x 2 ½" (25mm x 64mm)
 030969 Closed, 10" (254mm),
 Blade Size 1" x 2 ½" (25mm x 64mm)

Collins Speculum

Endocervical Speculum

- 030205 Endocervical Speculum Blue Titanium
 030915 Kogan with Screw 2-4mm
 030916 Kogan with Screw 4-8mm

MedGyn Needle Extender Adapters

Needle Adapters

An effective means of extending ordinary hypodermic needles when longer needles are required. The paracervical and uterosacral areas can easily be reached with an extended needle

- 030501 Needle Adapter 3" (76mm)
- 030502 Needle Adapter 4" (102mm)
- 030503 Needle Adapter 5" (127mm)
- 030504 Needle Adapter 6" (152mm)

030504

Endotracheal Tube Holder

Disposable and ready to use, the Endotracheal Tube Holder secures tubes used with ventilators and other breathing assistance devices.

- Does not contain natural rubber latex
- No tape is required to place the ET Tube Holder
- May eliminate need for a bite block
- Wide cotton-lined neckband minimizes skin irritation, providing maximum patient comfort

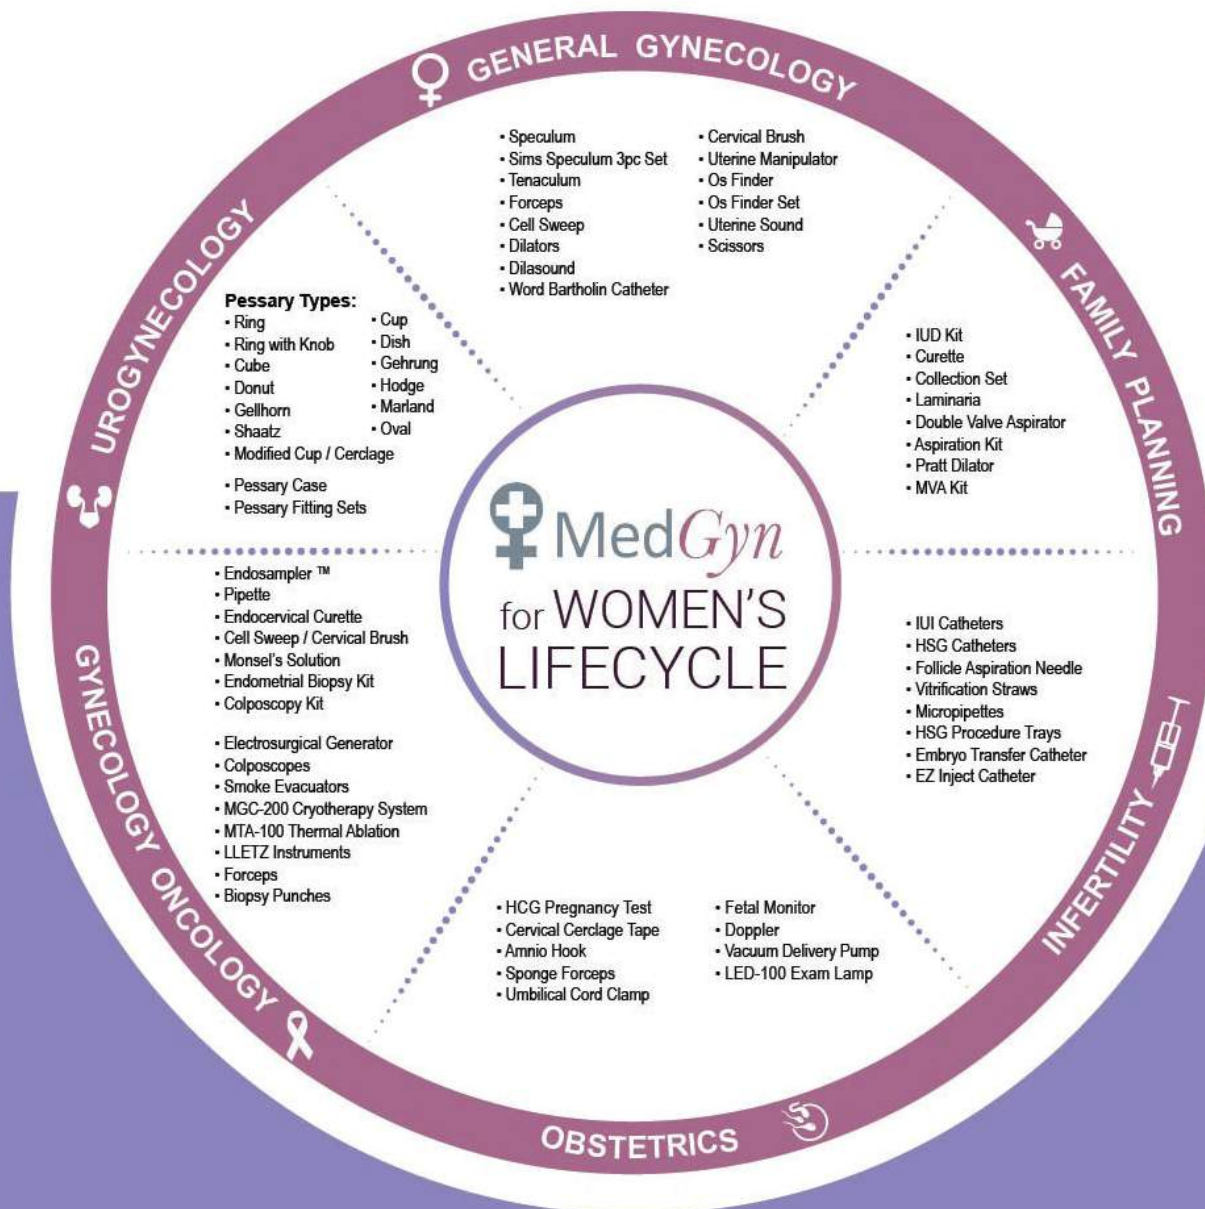

TMI-ET1 Endotracheal Tube Holder
